

Webinar

Cancellation policy

Weekly webinars are an important feature of our platform. When an organising team chooses to cancel or postpone a webinar, especially without sufficient notice, we risk having an empty webinar slot. This negatively affects the dynamics of the platform's activities and projects.

Please find our cancellation policy below. Understand that by confirming a webinar date with us, you are agreeing to the following:

Cancellations made at least one month in advance

Each organising team may cancel or postpone one webinar per year. If two webinars are cancelled or postponed in the same year, the organising team must wait six months to schedule a new one.

Cancellations made less than one month in advance

If the organising team cancels or postpones a webinar less than one month before it is due, they will be unable to schedule another for six months.
